---

Dear MVG Families and Communities,

Last week, Gov. Kevin Stitt issued an executive order for new restrictions to reduce the spread of COVID-19. Attendance at indoor youth sporting events will be limited to four spectators per participant or 50% of building capacity, whichever is less. The order will be in effect for at least 30 days.

Therefore, the number of MVG basketball spectators will be restricted to those who have a pre-entry ticket. The tickets will be issued to each participant prior to the game. A pre-entry ticket must be presented to purchase a game ticket at the gate. We will also require spectators to exit the gym after the first two games. Re-entry into the next games will require a pre-entry ticket for that set of games.

We continue to work hard to keep the health and safety of our students and our community members as a priority. Continual covid protocols such as cleaning and social distancing, as well as mask requirements will remain implemented to the best of our efforts. We ask for your cooperation when attending school events.

Sincerely,

Sam Belcher  
Mountain View Gotebo Superintendent
